Covid protocols

During the covid 19 pandemic the Chesapeake conference schools are following CDC, state, and local guidelines regarding protocols. Mask wearing, social distancing, sanitizing and hand washing are expected in all Chesapeake schools. Each school has created its own covid plan that follows the guidelines and addresses local concerns and available facility and human resources. School covid plans have been approved by the conference education department. During this pandemic and, at all times, the safety of our students and staff is our primary concern.
